

K-Anti Lock Roller Shield

K-Anti Lock Roller Shield is a device which helps to protect conveyor rollers from failure due to seizure. A common cause of belt mistracking which results in material spillage and belt damage is through material becoming jammed between the roller and roller bracket.

K-Anti Lock Roller Shields prevent damage from seized rollers by taking up the gap between the roller and bracket.

The discs are available in all roller sizes. When fitting, no tools are needed, and the roller does not require removal.

Benefits:

- Reduces maintenance
- Improves roller life
- Assists belt tracking
- Fitting without tools

Part Number	O.D x I.D	Ø Shaft
K-DISC-89x20	89 x 21	20
K-DISC-102x20	102 x 21	20
K-DISC-114x20	114 x 21	20
K-DISC-114x25	114 x 26	25
K-DISC-127x20	127 x 21	20
K-DISC-127x25	127 x 26	25
K-DISC-152x25	152 x 26	25
K-DISC-152x30	152 x 31	30
