

The ASBSH, in conjunction with Kinder Australia is hosting a webinar event open to all ASBSH members. We also invite and encourage non-members with an interest in bulk solids handling to attend. This seminar has been organised by Sean Kinder, technical convener for Victoria. Three presentations will take place during the webinar from:

- Jake Doesburg,  
Engineering Manager **Independent Cement**
- Steve Safflekos,  
Principal Engineer **BMT Group**
- Josh Proud,  
Director **EmTEK**

## Topics will include:

- Manufacturing of Cement from Blast Furnace Slag  
Independent Cement
- Formulating and Implementing Effective Asset  
Management Strategies for Large Bulk Materials  
Handling Plants - BMT Group
- Economics of Overland Conveyors  
Optimisation and Innovation - EmTEK
